## PROFESSIONAL SUMMARY

Full Stack Software Engineer with 2+ years of hands on Experience developing end-to-end Web Applications using React.js, Next.js, TypeScript, and Node.js. Seeking to leverage proven expertise in building Scalable Solutions and Delivering Impactful results for a forward thinking Tech Team.

## EDUCATION

**Bachelor of Software Engineering**  
COMSATS University Islamabad

Feb 2022 - Feb 2026  
*Islamabad, Pakistan*

## SKILLS

|                            |                                                       |
|----------------------------|-------------------------------------------------------|
| <b>Programming</b>         | Python, Java, C++, TypeScript                         |
| <b>Core CS</b>             | OOP, Data Structures, Algorithms                      |
| <b>Frontend</b>            | React.js, React Native, Next.js                       |
| <b>Backend</b>             | Node.js, Express.js, FastAPI                          |
| <b>APIs &amp; Services</b> | REST APIs, Third-Party API Integration, Microservices |
| <b>Databases</b>           | Firebase (Firestore), MongoDB                         |
| <b>AI / ML</b>             | Google Gemini AI, scikit-learn, TF-IDF, NLP Basics    |
| <b>Cloud &amp; Auth</b>    | Firebase Auth, Cloud Storage (Cloudinary)             |
| <b>Styling &amp; UI</b>    | Tailwind CSS, Figma                                   |
| <b>Version Control</b>     | Git, GitHub                                           |

## EXPERIENCE

**Full Stack Developer Intern**  
Pakistan Television Corporation (PTV)

Aug 2025 - Oct 2025  
*Islamabad, Pakistan*

- Completed an internship focused on understanding enterprise level software development environments.
- Collaborated with a cross-functional development team to analyze enterprise-level software workflows and system architectures.

**Freelance Full Stack Developer**  
Remote/Fiverr

Nov 2024 - Present

- Delivered high-impact Web solutions that improved Client Efficiency, Automated Workflows, and Enabled real-time Business Insights.
- Built and launched Traccar vehicle tracking system, SMST Dashboard, and RangeFit Gym management platform, Turning Client Requirements into Scalable, Reliable Applications.

## PROJECTS

**RangeFit Gym Management System (SaaS Project)** [\[Live Demo\]](#)

*Next.js, Firebase, Cloudinary, TypeScript, Tailwind CSS*

- Architected a **role-based SaaS platform** with Admin, Reception, and Member dashboards using **real-time Firebase synchronization**
- Automated **membership lifecycle, attendance, and payment workflows**, eliminating **15+ hours/week** of manual operations
- Improved data accuracy and decision-making by implementing **automated reports and analytics**, significantly reducing human error and operational overhead

## CareerCatalyst — AI-Powered Career Development Platform (FYP)

*React Native, Expo, Firebase, TypeScript, Python, FastAPI, Google Gemini AI, Node.js, scikit-learn*

- Engineered an end-to-end **AI-powered mobile platform** delivering ML-based career path predictions using **TF-IDF + Cosine Similarity** across **21 career roles and 500+ skills**
- Built a **real-time AI interview preparation system** with speech-to-text mock interviews, Gemini AI feedback, and adaptive MCQ evaluation to assess communication and technical readiness
- Designed a **highly scalable microservices backend** (FastAPI + Node.js) including automated **LinkedIn & Indeed job scraping**, OTP-based authentication, and email services
- Delivered a **professional resume builder** with multi-template PDF export, AI-generated summaries, and personalized **career + course recommendations (130+ courses)**

## Netflix Clone

*Next.js, Firebase, TypeScript, Tailwind CSS, TMDB API*

- Built a **fully responsive streaming platform** with real-time TMDB API integration, dynamic search, and personalized watchlists
- Implemented **secure authentication and real-time data synchronization** using Firebase for seamless cross-device user experiences
- Enhanced performance and SEO using **server-side rendering, lazy loading, and mobile-first design**, delivering fast page loads and improved accessibility
